

Product Safety Recall

UPDATED MODELS

Bosch Freestanding Gas/Electric Cooker 60cm

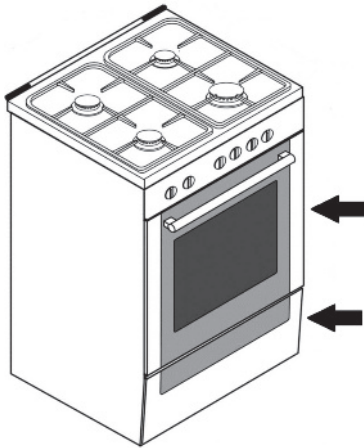

HGV74W255A, HGV74W355A and HSV745055A/02
 Manufactured between January 2009 and October 2011
 Batch number between 8901 and 9110

Defect: The adaptor between the gas supply and the appliance may crack causing a potential gas leak.

Hazard: A gas leak might cause an explosion.

What to do:

1. Any customer with this model should immediately check the appliance rating plate for the Model Number (E-Nr) and Batch Number (FD), then check their appliance at www.gascookingsafety.com to see if it is an affected model.

Appliance Rating Plate:

Located either on the right side of the oven door or cavity when the door is open, or in the accessory drawer when the drawer is open.

	Model # (E-Nr)	Batch # (FD)	
	↓	↓	
⊕	E-Nr.: HGV74W355A/01	FD: 8901	Z-Nr.: 00001
Type: HIWMDF	HGV74W355A	015010370000000012	
220 - 240 V	50/60 Hz	3.2 kW	

2. If affected, or if there is any uncertainty, immediately shut off the gas supply to the appliance and contact BSH Home Appliances Pty Ltd.

Contact details: To verify if your appliance is affected, please write down the model number (E-Nr) and batch number (FD) of your appliance and visit our dedicated website www.gascookingsafety.com or contact our toll-free repair helpline on 1300 955 742 available 24 hours from Monday to Friday to schedule a repair.
