

Product Safety Recall

Brazilian Blowout Professional Smoothing Solution (1L)

Sold at Haircare Australia 17 Sept 2010 - 3 Dec 2010.

Defect According to tests conducted for government bodies, pursuant to SUSMP standards, the Solution contains levels of free formaldehyde exceeding the allowable limits stipulated in the SUSMP standards.

Hazard Formaldehyde may cause skin and eye irritation. Certain studies link formaldehyde to cancer in circumstances of prolonged, chronic exposure.

What to do Salons should stop using the Solution and contact Haircare Australia to receive a credit or refund of the purchase price.

Contact Details contact Haircare Australia on 1300 437 436.
