

Product Safety Recall

Companion single (COMP01023) and dual burner (COMP01034) butane cartridge stoves

Defect: In some stoves, the gas safety valve may not fully seal at the gas cartridge end during operation.

Hazard: Improper sealing may cause a gas leak. If gas leaks from the safety valve during stove operation, there is a risk of explosion. This may result in injury.

What to do: Customers should return immediately to Companion Brands or the place you purchased it from for a full refund of the purchase price.

Contact details: Contact Companion Brands customer service on 1300 555 197 Mon-Fri 9:00am-5:00pm, or email sales@companionbrands.com.au
