

# PRODUCT SAFETY ANNOUNCEMENT

## **Detroit 7.5kVA / 13hp Generator & Detroit 3.1kVA / 2500W Generator** Sold at Total Tools stores from 1st April 2013

### **Defect**

Manufactured with a Multiple Earth Neutral (MEN) link between neutral & earth without a Residual Current Device (RCD). Not compliant with AS2790: 6.1.9

### **Hazard**

If a fault occurs in the unit or equipment the MEN which is bonded to the frame can cause the frame to become live and could cause an electric shock.

### **What to do**

Consumers should return their unit to the Total Tools store where purchased to have the MEN removed.
