

Product Safety Recall

Dr. Martens Cherry Red Vegan 1460 Boot

Accent Group Limited is conducting a recall of the Dr. Martens Cherry Red Vegan 1460 boot.

Defect: The dye used to colour the fabric in the tongue lining of the boot contains traces of the chemical benzidine.

Hazard: Expert authorities classify benzidine as a carcinogen and recommend that exposure be limited. Prolonged and direct contact with the boot tongue lining could expose the wearer to the chemical.

What to do: Consumers should stop using the boots and for a full refund contact
