

ELECTRICAL SAFETY RECALL

Electrolux EVEP626SC Oven

Electrolux Home Products Pty Ltd, is recalling Electrolux model EVEP626SC 60cm Pyrolytic Duo Oven.

The model and serial number is clearly visible on the front lower panel and may be seen by opening the main oven door. (See illustration)

What is the fault?

A potential insulation failure has been identified that could make the food probe electrically live.

What is the Hazard?

If you touch the live food probe, you could get an electric shock. In the worst case this may result in electrocution.

What to do

Check the model number on the oven. If it is an EVEP626SC, cease using the food probe immediately.

To arrange a service technician to attend and correct the fault, free of charge, owners or users of this Electrolux oven should call the toll free number **1800 001 218** between 8am and 7pm EST Mon-Fri, or email productrecall@electrolux.com
