

Identifying numbers:

Discus Dental Australia Pty Limited has sold 710 syringes of affected Relief ACP Oral Care Gels in Australia to 54 identified Dental Practices from 4 August 2014. The Dental Practices with affected products were notified of the recall on 4 November 2014. Some of the affected product may have been dispensed to consumers by the affected Dental Practices.

Affected Relief ACP Oral Care Gel was sold to Dental Practices as part of in chair whitening kits and bulk unit packaging designed for both in chair use by the dentists on consumers, and to be individually dispensed or sold to consumers following an in chair procedure. The lot numbers of affected in chair whitening kits and bulk unit packaging sold to Dental Practices are identified in the below table.
