

IMPORTANT INFORMATION NOTICE

PRODUCT INFORMATION AND SAFETY INSTRUCTIONS DULUX METALSHIELD COLD GALV SPRAYPAK (SILVER)

DuluxGroup (Australia) Pty Ltd has become aware that certain information contained on the label of the product Dulux Metalshield Cold Galv Spraypak (Silver colour only) is incorrect. The incorrect information came from the manufacturer of the product.

The product label states that the product contains *10-30% Xylene; 1-10% Aqueous Ammonia*. In fact, the product contains *30-60% Toluene*.

In light of the Toluene content of the product, it is important that information regarding risks associated with that content are passed to the users of the product.

In particular, all users of this product should be aware of the following updated risk information about the product:

- Extremely Flammable.
- Irritating to skin.
- Harmful: danger of serious damage to health by prolonged exposure through inhalation.
- Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
- Possible risk of harm to the unborn child.
- Harmful: May cause lung damage if swallowed.
- Vapours may cause drowsiness and dizziness.
- Protective clothing and equipment must be used when using this product, including overalls, safety shoes, safety gloves and a respirator.
- Breathing the vapour is dangerous.
- Provide adequate ventilation during application.
- Do not use in the presence of a naked flame.
- Do not smoke.

Dulux has removed the product from sale and will relabel the products with the information above. However, we are contacting you directly as we are aware that you have purchased the product under your account. It is important that the information contained in this notice is provided to whoever is using this product.

If you have any queries or concerns, please call Jason Farrugia at Dulux on 03 9263 5742 or visit your nearest Dulux Trade Centre. Further information is also available online at www.duluxprotectivecoatings.com.au.
