Kmart is voluntarily recalling these products as a potential ingestion hazard has been identified. The zips of these jackets have a faulty stopper. When in the open position, the slide puller can be liberated from the zip by sliding directly over the stopper.

This is a precautionary recall and no injuries have been reported to date. Customers should cease using the jacket immediately and return the product to any Kmart store for a full refund.

Kmart apologises for any inconvenience caused by this recall.

Customer requiring further information should call 1800 124 125.
