

SAFETY RECALL

Lenovo ThinkCentre M90z all in-one desktop PCs

Lenovo (Australia & New Zealand) Pty Limited ABN 70 112 394 411 is voluntarily recalling certain ThinkCentre M90z all-in-one desktop PCs sold between May 2010 and March 2012. The power supplies in those PCs may include a defective component. This component can overheat and pose a fire hazard.

M90z

Customers should immediately contact Lenovo Services Australia on 131-426 or Lenovo Services New Zealand on 0800-733-222, or visit Lenovo's website at www.lenovo.com/aiopsurecall to determine if their ThinkCentre M90z desktop PC is part of the recall and to schedule a service appointment for power supply replacement.

Lenovo will replace the power supplies inside affected PCs free-of-charge. Until the power supply is replaced, consumers with affected PCs should immediately stop using the PC and unplug the power cord.
