

Product Safety Recall

Moldex Metric Inc – Gas & Vapour Chemical Cartridge

PRA number: 2012/13384

Date created: 22nd November 2012

Product Information

Product description Type A Class 1 carbon-filled cartridge for use on half mask and full-face respirators against certain organic vapours.

Type/Class A1.B1.E1.K1 carbon-filled cartridge for use on half mask and full-face respirators against certain organic, inorganic, acid, and ammonia gases.

Identifying features Moldex 7100A and 7600A. All batch numbers preceding 121112000.

What are the defects? A small number of gas/vapour chemical cartridges (Moldex 7100A and 7600A) exhibit gas/vapour “breakthrough” after shorter duration than the standard, meaning that gases will not be filtered for as long as required by the safety standard AS/NZS 1716:2012.

What are the hazards? If the defect occurs, the consumer may be exposed to hazardous chemicals.

Dates available for sale 20th January 2010 - 22nd November 2012.

Where the product was sold Nationally.

Traders who sold this product Sold nationally through specialty safety equipment suppliers.

Supplier Moldex Metric Inc.
