<p>USE AND WARNING LEVEL 50 PFD: The Consumer must only use for use in sheltered waters with help and a means of rescue at hand. This is not a life jacket. Level 50 PFD only reduces the risk of drowning, it does not prevent the wearer from being pulled under the water. Do not use for long periods of time. Check your PFD frequently under your feet and behind your legs for damaged straps or defective zippers. Use your PFD regularly to make sure it fits comfortably and securely against your body. This is important if you are using it in the water. Do not use in rough seas, and make sure a knowledgeable person is always with you. Do not use in rough seas, and make sure a knowledgeable person is always with you. Do not use in rough seas, and make sure a knowledgeable person is always with you. Do not use in rough seas, and make sure a knowledgeable person is always with you.</p>		<p>USE AND WARNING LEVEL 50 PFD: The Consumer must only use for use in sheltered waters with help and a means of rescue at hand. Defect

The product does not comply with the minimum buoyancy requirements of the Voluntary Australian Standard AS 4758.1:2015 for lifejackets. The flotation material within the product provides insufficient buoyancy.

Hazard

If a child wearing this life vest enters the water, the product may not provide the required flotation for the child to stay above the waterline. This can lead to the child suffering serious injury or death.

What to do

Consumers should immediately stop using the vest and return it to the place of purchase for a full refund.

For further information consumers can contact:

Jetpilot Australia Pty Ltd on +61 7 5665 8333 or customerservice@jetpilot.com
