

ELECTRICAL SAFETY RECALL

LEDified LED Drivers

Extension of initial recall with added affected Batch 1416

Models MR1650270700D and MR1650400700D

Product Description: Dedicated LED Driver for 10W MR16 LED lamps. Supplied with downlight kits.

Identifying Features: Batch numbers **1351**, **1416**, **1418** and **1424** for model numbers **MR1650270700D** and **MR1650400700D**. The model numbers and batch numbers are located on the drivers as shown in the photograph.

Defect: An internal fault in the driver can cause it to fail which may expose live parts or cause a fire.

Hazard: Risk of electric shock and fire.

Where the product was sold: The products were supplied in Victoria direct to customers by the LEDified Corporation, mostly through the Victorian Energy Efficiency Target Scheme (VEET) between 1 January 2014 and 31 December 2014.

What should consumers do?

- Stop using downlights with LED drivers described above.
- Contact LEDified Corporation
 - By phone at (03) 9975 1660; or
 - By email at faulds@LEDified.com.au.
- LEDified Corporation will also be contacting the affected consumers.
