

Product Safety Recall

Do you own this product?

SC Johnson & Son - 1.2L Drano Max Gel

A drain cleaner sold in an orange bottle.

Affected products can be identified as having both:

- The batch code 664154 located on the bottle neck
- The UPC 9300622003658 below the bottle barcode.

Dates sold: 14 April 2023 – 23 May 2023

Why the product is recalled: The cap of bottles may not seal the bottle properly, and result in product leakage. Leakage may be found near the cap and on the outside of the bottle.

Hazard: There is a risk of eye and breathing irritation, severe burns to skin and mucous membranes if exposed to the leaked corrosive product. Young children or pets may come into contact with or ingest its contents, which are corrosive.

Immediately stop using the product and keep away from young children and pets.

Visit www.dranomaxgelrecallau.com to check if your product is affected by providing the batch code and UPC number.

Follow instructions on the [website](#) to safely dispose of the product and to request a full refund.

Wear gloves while handling an affected product to protect against any leakage.

For more information, or if you have more than 1 bottle to claim, contact SC Johnson & Son by phone 1800 801 869 9am to 6pm Monday to Friday, [webform](#) or visit the [website](#).
