

# Product Safety Recall

**Husqvarna tractor model nos. CTH2038 and CTH2642TE with serial nos. 010611D001376 through 02150211D001032**  
*(The serial number may be found on the serial plate, which is located on the chassis, beneath the driver's seat)*

#### **What are the hazards?**

The drive gears may fail, causing the drive system to lose the ability to brake effectively, posing a risk of injury to the operator or bystanders.

#### **What are the defects?**

There is a potential defect in the bull gear, which will manifest itself as broken gear teeth under load and cause loss of engine braking.

#### **What should consumers do?**

Cease use of the lawn tractor immediately and contact the place of purchase to arrange for a service appointment and have the transaxle inspected to determine if a transaxle replacement is necessary.

For more information contact **Husqvarna Technical Service** on 1300 755 214 or at [technical.service@husqvarna.com.au](mailto:technical.service@husqvarna.com.au).
