**Sold between 22 February 2016 and 30 May 2019**

**Defect:** The plastic brackets holding the bunk beds together may crack or break. This may be caused by the over-tightening of the screws on the brackets or by misuse, for example, repeated jumping on or climbing over the sides of the bed.

**Hazard:** If the brackets crack or break the bunk bed may collapse and could result in a fall, serious injury or even death.

**What to do** Consumers should immediately stop using the Bunk Bed and contact us to receive (free of charge) a set of upgraded replacement metal brackets, including a new set of fixing screws and covers.

Each set will come with instructions for the replacement of the current brackets with the upgraded metal brackets.

**Contact details:** For further information consumers can contact Fitting Furniture on 1300 835 841 or email [info@fittingfurniture.com.au](mailto:info@fittingfurniture.com.au)
