

Product Safety Recall

Magnetic Hematite Rattle Snake Eggs 2 pack

Sold by Sunrise Imports Pty Ltd
1 May 2017 to 22 October 2017

Defect: The product exceeds the maximum allowable magnetic flux set by the permanent ban on certain small, high-powered magnets, prescribed in Consumer Protection Notice No 5 of 2012.

Hazard: If a child swallows more than one small high-powered magnet, the magnets can stick together across the walls of the child's intestine or other digestive tissue, which can lead to internal injuries and even death. The magnets may pose a choking hazard to young children (small parts).

What to do: Consumers should stop using the magnets immediately and return them to Sunrise Imports for a full refund.
