(Affected stock)

Correct packaging

Why the product is recalled: The product does not comply with the mandatory information standard for products containing button/coin batteries. The required warning symbol to advise consumers to keep out of children's reach is not visible as it has been covered by a sticker on the back of the product's packaging.

Hazard: There is a risk of serious injury if the battery is swallowed or inserted in the body.

Consumers should immediately place the batteries out of reach of children and email Energizer at A76compliance@energizer.com to arrange a compliant warning label to be sent out.

For further information please contact us on the above email address.
