

Product Safety Recall

Do you own this product?

Elgas Ltd — Swap N Go 8.5kg Gas Exchange Cylinder – Bunnings Geraldton, WA

8.5kg LPG exchange gas cylinder with Swap N Go branding.

Affected cylinders were supplied from Bunnings Geraldton on Wednesday 11 September 2024.

Dates sold: 11 September 2024

Why the product is recalled: Affected cylinders may have been overfilled, which could cause gas to be released from the safety valve in the cylinder.

Hazard: There is a risk of serious injury from burns and property damage if:

- the gas released from the cylinder comes into contact with an ignition source, or
- the gas cylinder is connected to an appliance, and the liquid LPG flows into the appliance instead of gas and catches fire or explodes.

There is also a risk of serious injury from cold burns if you come into contact with the gas as it releases from the valve.

Stop using the cylinder immediately and disconnect it from any appliance. You should contact Elgas to arrange collection of the recalled cylinder and a replacement to be provided free of charge.

Contact Elgas on 0438698072 or redreed@westnet.com.au
