

Product Safety Recall

Royal Automobile Association of South Australia
(RAA) — Promotional Silicone LED bicycle light

Distributed as part of the RAA Street Smart Program between
30/06/2018 – 8/03/2019

Defect: The silicone cover may be of an inadequate thickness to prevent tearing and access to the battery compartment. The battery compartment is not adequately secured and the button batteries in the product are easily accessible.

Hazard: If young children gain access to the button batteries and ingest them, they may suffer internal burn injuries, which can result in serious illness and even death. In addition, the batteries may pose a choking hazard to young children.

What to do: Consumers who received a free promotional bicycle light should dispose of the light by wrapping the product in paper and disposing of it in the household rubbish. After disposal, consumers should notify ssmart@raa.com.au so that the safe disposal of the product can be monitored.

Contact Details: For further information contact RAA on 08 8202 4600.
