

Product Safety Recall

Airsack
Sold by Airsack Pty Ltd
Between 01/01/2017 and 30/10/2017

Defect: The product does not meet the Consumer Goods (Bean Bags) Safety Standard 2014.

Hazard: The external cover/bag is not fitted with a warning label or a child resistant slide fastener, which could post a potential choking/suffocation hazard to young children.

What to do: Airsack Pty Ltd is under external administration and as a result there is no longer avenue for remediation for consumers.

Consumers should ensure that the non-compliant bean bag is disposed of appropriately to eliminate any risk of a choking or suffocation hazard.
