

ELECTRICAL SAFETY RECALL

**Targus APA95AU-50, 45W USB-C PD3.0 Laptop Wall Charger
Sold in Australia from 4 December 2017 to 22 February 2019**

Product: APA95AU-50, 45W USB-C PD3.0 Laptop Wall Charger.

Defect: There is potential on some units for the faceplate to separate from the body of the AC plug head and expose live parts.

Hazard: Risk of electric shock

What to do: **Do not** attempt to unplug the charger without switching off the power at the power source. **Do** switch off the power to the charger before attempting to remove it from any socket outlets. If you are not certain that the power has been switched off, seek qualified help to confirm the power is off and to remove the charger safely. **Contact Targus Australia Pty Ltd** at anz.apa95@targus.com or 1800 641 645 to arrange a free replacement (or refund if replacement is not available).

Contact Details: For more information about the recall, consumers are invited to contact Targus Australia Customer Service at anz.apa95@targus.com or 1800 641 645.

See www.productsafety.gov.au for Australian product recall information.
