

ELECTRICAL SAFETY RECALL

HSP / Wind Hobby

Remote Control Car Battery Charger

Identification:

The charger, model Y090500, was supplied with the Cheetah, Binturong, Ocelot, Grampus, Lion, 1/10th & 1/8th Crawler remote control cars.

The model number along with the words "Travel Charger" is located on the body of the charger.

Where the product was sold:

The charger was sold at the RC Web and Warehouse retail store in Geelong and online at www.rcwebandwarehouse.com.au between November 2013 and 15th January 2016.

Defect:

The front enclosure may separate from the main body of the charger exposing live parts.

Hazard:

Risk of electric shock

Action required:

- Immediately stop using the charger.
- Switch off the power at the socket outlet and unplug the product.
- Consumers should bring the charger in store, to RC Web and Warehouse, for a replacement battery charger.
- For further information call 03 5292 1101.
