

# SAFETY RECALL

## phil&teds® explorer and hammerhead strollers

Serial numbers 0610/0001 through to 0111/4788 (series 1)  
(sold July - December 2010)

**Identification:** Serial number on outer left main hinge.

**Hazard:** Brakes on these strollers can become damaged in use or foreseeable mis-use and no longer function, and loss of function may not be apparent. Fully functioning brakes are critical to ensuring the stroller remains safely stationary when parked.

**Remedy:** New (series 2) brake systems have proven more durable and therefore less prone to damage and function loss.

Remedy is FREE upgrade to series 2 brake system

- options include:

- easy self-install in-home frame swap (frame delivered)
- service centre upgrade (walk-in, walk-out or door-to-door courier service).

**Note:** This does not apply to any other stroller.

**Action:** PLEASE REGISTER ONLINE or call the following number to obtain your FREE replacement frame with simple step-by-step instructions, or alternate remedy.
