

PRODUCT SAFETY RECALL

Potential Incorrect Mattress Size Kingparrot Breathable Mattress (Dimensions: 1320mm x 695mm x 110mm)

Boori International hereby notifies customers that there may be a sizing issue affecting some of Kingparrot Breathable Mattress purchased between the periods of 1st January 2011 to 1st May 2011.

A gap of greater than 20mm between any side of the mattress is centred, is not in accordance with Australian Standard AS 2172-2003. This is to minimise the danger of a child smothering its face or becoming trapped between the mattress and the cot sides or ends. If the Kingparrot Breathable Mattress is not 1320mm x 695mm x 110mm or larger – the gap between cot and mattress may exceed the maximum gap set by the Standard.

If you have purchased this mattress and identified the gap between your cot sides and the mattress as greater than 20mm when the mattress is centred, or 40mm when the mattress is pushed to the other side or end of the cot, please contact Boori International on 1800 700 421. Boori will replace the mattress or refund to you the price of the mattress. We apologise for any inconvenience this may cause.
