

Product Safety Recall

Please note that the following regarding an Australia wide product recall from Potential of Hydrogen (www.potentialofhydrogen.com.au)

Models affected:

- pH01 Sulphuric Acid
- pH06 Saliva
- pH09 Baking Soda

Models purchased before 30th April 2011.

Defect:

The above, models of bicycles have not been supplied with chain guards as per requirements of the Pedal Bicycle mandatory standard.

Potential hazard:

In the absence of a chain guard, entrapment of clothing or body parts could occur in between the upper junction of the chain and chain wheel.

What to do:

Consumers should stop riding the bicycles immediately and contact Potential of Hydrogen to be directed to the nearest authorised dealer to have a chain guard fitted.

Contact details:

Please contact Potential of Hydrogen on 02 9550 6550 (0413 850 227 after hours) or email support@potentialofhydrogen.com.au
