

Product Safety Recall

Portable AVR / Inverter Generators

Manufactured by Fuji Heavy Industries Ltd, Japan

Sold between March 2004 and October 2010

Portable Avr Generator

CUMMINS P1100

Portable Inverter Generator

CUMMINS P1700i

Defect: Affected generators may develop cracks around the fuel tank outlet, which could result in fuel leakage.

Hazard: Fuel leakage presents a fire risk.

What to do: Customers should stop using the generator and contact one of the following to check whether their unit requires modification at no cost.
