

# Product Safety Recall

Garmin Australasia Pty. Ltd. hereby announces a product recall of a limited range of nüvi GPS devices. The models affected include: nüvi 200W, 250W, 260W and 760.

It has been identified that some units which contain batteries manufactured by a third party supplier have the potential to overheat in rare circumstances which may lead to a fire hazard.

**If you have a Garmin nüvi GPS device, to determine if your unit is affected, please visit [www.garmin.com/nuvibatterypcbrecall](http://www.garmin.com/nuvibatterypcbrecall) and enter the unit's serial number. If you have an affected unit please follow the steps outlined on the website.**

For further information call 1800 113 738.
