PATRULL KLÄMMA safety gate and extension

IKEA urges customers who have a PATRULL safety gate to immediately stop using it and bring it back to any IKEA store for a full refund.

Defect: IKEA has received reports of children falling down stairs when the locking mechanism of the PATRULL gate has unexpectedly opened, due to the catch not returning to the correct position, and the user not being aware of this.

Hazard: This poses a significant risk of injury for small children.

What to do: Despite the product complying with applicable standards, IKEA is not willing to put children's safety at risk, and therefore urges all customers who have PATRULL safety gates to immediately stop using them, and return them to any IKEA store for a full refund.

Proof of purchase (receipt) is **not required** for a full refund.
