

PRODUCT SAFETY RECALL

Item No. 61370 Sip N Snack Bottle

Recently sold in Kathmandu Stores including online

Defect: Recent safety concern regarding the lid on the Sip N Snack Bottle.

Hazard: There is a small part that may be pushed into the bottle, exposing the drinker to the risk of ingesting or choking on the part should they choose to drink from the bottle without using the sipper lid.

What to do: As a precaution we are recalling the lids to this product, and offering a replacement lid that does not pose a choking hazard. Please either return your Sip N Snack Bottle to your nearest Kathmandu store, where a replacement lid will be given, or alternatively call Customer Service to organize a replacement lid via courier.
