

Product Safety Recall

Wattyl Killrust Cold Galvit Aerosol 375g Packs Batch Number C3431112

Sold nationally, through leading hardware chain stores, independent hardware stores and paint specialists between January 2012 and September 2013.

Defect: There is a possibility that the packs have become over-pressurised and may rupture during storage or use.

Hazard: Over-pressurised pack can rupture during storage or use potentially causing property damage or personal injury.

What to do: Do not shake the pack. Hold the pack away and remove the plastic cap to check the batch number. The batch number C3431112 is printed on top of the pack on the outside rim, beneath the removable plastic cap. If the batch number is confirmed to be the affected batch, isolate the pack in a cool place away from direct sunlight. If the batch number is not readable then follow the same procedure. Then contact Valspar, giving your contact details, to arrange collection and refund.

Contact details: Contact the Valspar Recall Hotline on 1800 770 982 between 8.00am and 5.30pm Australia EST Monday to Friday or email productrecall@valspar.com
