

Product Safety Recall

Wassco—Baby Bean Bag

Sold online via Wassco between 1 Jan 2013 & 28 Aug 2013

Defect: The inner zipper (second zipper inside the bean bag) may have a zip lever attached in contravention of the mandatory standard.

Hazard: A child could gain access to the beads, posing a risk of suffocation as well as inhalation and ingestion.

What to do: Customers will be contacted and provided with instructions on how to remove the inner zipper of the bean bag.

Contact details: For further information please email Wassco on sales@wassco.com.au
