BMW Service Information

Fuel system

Safety Campaign – Replace fuel filter heater

E60 E61 E70 E71 E8x F01 F02

Situation

Electrically weak contacts may occur on the PCB of the fuel filter heater.

Effect

As a result, under unfavourable conditions, individual components on the PCB of the fuel filter heater may overheat or, in an unfavourable case, cause a fire in the vehicle. Material damage and personal injury could then not be ruled out.

Vehicles concerned

E60 E61 E70 E71 E8x F01 F02. According to VIN selection
Please see your WIT dealer workplace for your complete chassis number listing.

Customer notification

BMW Group Australia will be writing to the customers of the affected vehicles, utilising the national vehicle database supplied through NEVDIS. We also ask that the selling / servicing dealer contact their customers to arrange for the campaign to be carried out ASAP.

Measure

Replace the fuel filter heater.

Procedure

When replacing the fuel filter heater, please proceed as advised in the Repair Instructions **RA 13 32 051 Replace the fuel filter/fuel preheater.**

Parts

Part number	Description	Quantity
13 32 8 572 519	Fuel filter heater	1 (E7x, E8x, F01, F02, F10)
13 32 8 572 523	Fuel filter heater	1 (E60, E61, E83)
16 12 1 180 240	Hose clamp	2 (all vehicles)
