Defect The fitting kit for these roof racks can become loose and result in the fitting kit and roof racks and anything being carried on it to detach from its position on the roof of the vehicles listed above

Hazard If the defect occurs, this poses a serious risk to the driver and other road users and may cause injury or property damage

What to do Customers should detach and cease using the roof racks with these fitting kits on the vehicles listed above immediately and contact Hubco Automotive Ltd who will arrange for the fitting kits to be returned to Hubco and the consumer will receive a refund or replacement fitting kit

Contact Details Please contact .Rae Grey at Hubco Automotive on 1800 143 548 or email safety@hubco.co.nz.
