63900001 to 63900550

64200001 to 64200100

CF-50AC VER.B

63900001 to 63900500

64000001 to 64000100

Defect

A controller failure may occur during use of the product.

Hazards

If the failure occurs it may cause the controller to overheat and partially melt, becoming a burn risk to consumers.

What to do

If you own one of these fridge/freezers, check the model and serial number on the rating plate located underneath the cabinet. If your model is included in the detail above, **discontinue using the product immediately**, and take it to your nearest service agent for fitment of new electronics free of charge.

Contact details

You can find your nearest service agent by calling **1800 21 21 21**

Mon-Fri 8:00am - 5:00pm EST, or via email at qldservice@dometic.com.au
