

Product Safety Recall

METALLISK Espresso Maker

Available at IKEA (in-store and online)

Identification: METALLISK Espresso Maker with the stainless-steel safety valve
Silver/grey colour

The product has manufacturing date stamps between 2040 and 2204 (located at the bottom of the product).

Defect: Due to a manufacturing defect, the espresso maker's safety valve may not function properly and cause the product to burst. The burst can cause a sudden separation between the top and lower half of the espresso maker.

Hazard: If the espresso maker bursts during use, this can increase the risk of burns, scalding or serious injury. The defect has occurred and caused injuries to consumers.

What to do:

Consumers should stop using the product. Consumers should return the product to IKEA for a full refund or to exchange for a similar product. Proof of purchase (receipt) is not required. For more information, please visit www.IKEA.com.au/recalls or phone
