

# Product Safety Recall

## Do you own this product?

### Haltech – Nexus S Series electronic control unit

Electronic control unit (ECU) used to modify vehicle performance. Suitable for installation in racing vehicles.

Recalled models:

- Nexus S2 ECU, product code: HT-212000
- Nexus S3 ECU, product code: HT-213000

Each unit has a unique 12-digit serial number which can be found on the label on the back of the product.

Dates sold: 21 August 2024 – 1 October 2024

**Why the product is recalled:** The bottom enclosure or base plate of the ECU is faulty, which can cause an internal electrical short circuit.

**Hazard:** A risk of burn injuries and vehicle damage as the ECU can catch fire. A risk of laceration injuries as the top enclosure of the ECU could also crack if the vehicle is in use and shoot out broken plastic materials.

1. Stop using the ECU immediately.
2. If you think you have an affected unit and have not been contacted yet, please contact Haltech on 02 9729 0999 or the place of purchase to get your product reworked or receive a component replacement kit with instructions.

For more information, contact Haltech Engine Management Systems:
