

Product Safety Recall

Do you own this product?

WU-ES7 Electronic Countdown Ballast used in WU-UV water filtering systems.

Water filtering systems which may include the WU-ES7 are:

- WU-UV100
- WU-UV150
- WU-UV200
- WU-UV250

Affected units will have Part Number WU-ES7 printed on the ballast.

Dates sold: 3 April 2023 – 30 April 2024

Why the product is recalled: Affected ballasts may have a fault that can cause a short circuit. The ballast may activate an RCD when started or short circuit and emit smoke or sparks.

Hazard: There is a risk of serious injury or death from electrocution and risk of serious injury, death or property damage from fire.

1. Consumers should immediately disconnect the ballast from the power supply.
2. Check the part number on the left side of the ballast.
3. If the part number is WU-ES7, consumers should contact Puretec on sales@puretecgroupp.com or by phone on 1300 140 140 to arrange a replacement ballast for the UV system.

For more information contact Puretec on sales@puretecgroupp.com or by phone on 1300 140 140
