Adreno — 18650 Battery charger supplied with BigBlue AL1300 lumen dive torch

Adreno battery charger/power supplied with the BigBlue AL1300 lumen dive torches.

Impacted models: SW-043100, SW-042100

The product can be identified from the product label details: 18650 Battery Charger, BATCHR18650

Dates sold: 1 August 2018 to 20 June 2023

Why the product is recalled: The charger has not been tested to relevant Australian/New Zealand electrical standards:

- AS/NZS 61558.2.16:2022 - Safety of transformers, reactors, power supply units and combinations thereof, Part 2.16: Particular requirements and tests for switch mode power supply units and transformers for switch mode power supply units for general applications
- AS/NZS 3112:2017 Amd 1:2021 - Approval and test specification — Plugs and socket-outlets

Hazard: There is a risk of serious injury or death from an electrical shock. There is also a risk of damage to property if the charger catches fire.

Consumers should stop using the charger immediately.

Contact Adreno to arrange either:

- a replacement charger to be sent, with additional USB charging lead, by submitting a recall replacement request via the online form.
- return of the charger and torch to your closest Adreno outlet for a full refund.

For further information, consumers can contact Adreno by phone 07 3391 4905, email sales@adreno.com.au or online chat <https://adreno.com.au/pages/contact-us-customer-service>.
