

Product Safety Recall

Various button batteries without warning symbols

Various lithium button batteries sold by FITN Solar eBay store. Batteries were sold in packs containing up to 5 batteries between 1/04/2022 and 10/01/2023.

CR2016 | CR2025 | CR2430 | CR2450 | CR2032

Why the product is recalled: The button battery packaging does not have the correct warning symbols and wording.

Hazard: If young children gain access to button batteries and ingest them, they are likely to suffer severe internal burn injuries, which can result in serious injury or death.

Button batteries also pose a choking hazard to young children.

What to do: Consumers should keep the batteries out of reach of children. Consumers can contact FITN Trading and Service Pty Ltd by emailing huwising@gmail.com or calling 0451866580 to arrange a refund.

Contact details: For more information contact FITN Trading and Service Pty Ltd by emailing huwising@gmail.com or calling 0451866580.
