

# ELECTRICAL SAFETY RECALL

## WireAlert plug in device

Note: The picture shown below is indicative only, the actual device may differ.

**IDENTIFICATION:** Horizon Power supplied this device to customers free of charge to households and businesses in the Esperance, Norseman and Hopetoun areas in WA between 01/01/2010 and 31/12/2010.

**DEFECT:** A component inside the unit that is live with 240 volts of electrical current, is accessible via a hole in the device.

If a metal object is inserted into the hole from which the alarm noise emanates, while the device is plugged in, the metal object may come into contact with 240 volts, which may cause electric shock or electrocution.

**HAZARD:** Risk of electric shock or electrocution, may cause serious injury or death.

**ACTION REQUIRED:** Consumers should immediately cease using the device, unplug it and return it to Horizon Power at 143 Sims St Esperance, Western Australia or any other Horizon Power office or depot.

**CONTACT DETAILS:** For further information, contact Horizon Power on 1800 267 926 or by email at [enquiries@horizonpower-reply.com.au](mailto:enquiries@horizonpower-reply.com.au)
