

Product Safety Recall

Troll LUKAS mattress base missing warning labels.

Sold by Baby Bunting August 2017 – May 2018

Defect – Missing warning labels. Cots manufactured on the 30.5.2017 do not comply with Consumer Protection Notice No6 of 2005 for labelling requirements. Compliance stickers with mandatory consumer warnings were not placed on the top surface of the mattress base.

Hazard – Injury risk if the incorrect mattress is used, or the base is not adjusted to the correct position.

What to do – If you purchased a Troll Lukas cot after August 2017 from a Baby Bunting Store, check the top surface of your mattress base, and if the warning stickers are absent, contact Danish by Design Pty Ltd to receive a new sticker and instructions on fixing it to your cot base.
