

Product Safety Recall

Loox 12V/60W constant voltage power supply units Article Number 833.74.964 (black)

Sold by Hafele Australia Pty Ltd from 22 August 2017 - 24 April 2018

Defect There is a risk that if the product is misused and the maximum stated and permissible load for the product is exceeded the housing of the driver may overheat.

Hazard If the housing of the driver overheats, there is a risk of burns in circumstances where there is direct contact with the skin and if the housing is ruptured possible electric shock. In extreme situations, the driver may catch fire.

What to do When used properly, and with a load of up to 60 watts, the product works properly and there is no risk. The overheating only may arise if the product has been improperly used by overloading its stated capacity. If you cannot rule out the possibility of overload, we urge you to avoid these risks and disconnect the product.

Contact details You can contact Häfele Australia on +61 (0)3 9212 2000 Mon-Fri 8am-5pm, or via email at info@hafele.com.au.
