Defect The product contains small, high-powered magnets. The product exceeds the maximum allowable magnetic flux index set by the permanent ban on certain small, high powered magnets, prescribed in Consumer Protection Notice No 5 of 2012 'Imposition of permanent ban on small, high powered magnets'.

Hazard If a child swallows more than one small high powered magnet, the magnets can stick together across the walls of the child's intestine or other digestive tissue, which can lead to internal injuries and even death. The magnets may pose a choking hazard to young children (small parts).

What to do Consumers should stop using the product. Online Discount Shop will contact consumers directly to organise a refund. Consumers are asked to either dispose of the product, or return it to Online Discount Shop.
