

Product Safety Recall

FLÎKR Mini Fireplace

Sold online by Gallantoro.com from 25 July 2020 to 12 August 2020

Defect: The product does not comply with the requirements of the Consumer Goods (Decorative Alcohol Fuelled Devices) Safety Standard 2017.

The product does not comply with the requirement to:

1. be a permanent fixture or have a dry weight of at least 8 kilograms and a footprint of at least 900 square centimetres;
2. meet the stability test set out in the European standard; and
3. come with a fuel container with a flame arrester or an automatic fuel pump system;
4. have the prescribed warning.

Hazard: The flame from a decorative alcohol burner may not be visible when lit. If the user refills the burner while lit there is a risk of an uncontrolled flame burst causing serious burns. A burner that does not have the required weight and footprint can be knocked over, resulting in an uncontrolled fire causing serious injuries or death.

What to do: Consumers must immediately cease use of the FLÎKR Mini Fireplace and contact Gallantoro to make arrangements to return the product for a full refund of the purchase price and postage.

Contact Details: For further information, consumers can contact the supplier by email at assistance@gallantoro.com.
