

Product Safety Recall

Ballz® QR Bicycle Skewers

The product is available from independent bicycle dealers between 1 August 2018 and 1 June 2021

DESCRIPTION: The Ballz® QR Skewer is a quick release bicycle axle used to attach the Coho® XC Trailer to a bicycle. SKU: 960219, 960220, 960222

Product includes Ballz QR® Skewers that were sold individually and included in the sale of the Coho® XC Trailer Model No. 935101.

DEFECT: The bicycle axle may have been damaged when initially installed and/or during use with the Coho® XC Cargo Trailer.

Hazard: If the bicycle axle fails while riding, this can cause the Coho® XC Trailer to detach from the bicycle leaving only one of the two tow arms connected to the bike. If this occurs, this can cause instability of the trailer and the bicycle rider, increasing the risk of an accident or injury.

WHAT TO DO: Consumers are advised to immediately stop using the product.

Consumers should dispose of the product and arrange a free replacement through [https:// www.burley.com/ballz-qr-skewer-recall/](https://www.burley.com/ballz-qr-skewer-recall/)

Replacement skewers will be available in September 2021.

Consumers will be requested to provide a photograph or video to show that the product has been disposed of. If the product has already been disposed of, consumers are asked to notify Burley so that the safe disposal of the products can be monitored.

For further information, consumers can contact the supplier on 02 8882 1900 Monday through Friday 8:30am to 5pm AEST or e-mail enquiries@cassons.com.au .
