

# ELECTRICAL SAFETY RECALL

## MINI HV Wallbox Gen II with charging socket - Electric Vehicle Charger

### IDENTIFICATION:

Sold by BMW Australia Ltd from 13 May 2020 to 22 October 2021.

Part number 61 90 2 472 423 printed on the side label.

Affected unit has a charging socket and **removable** charging cable.

**DEFECT:** The product does not comply with the Australian electrical safety standard.

The charging socket version fails to meet the certification and labelling requirements and the product is not certified for use in Australia.

**HAZARD:** Risk of electric shock or fire causing serious injury or death.

### ACTION REQUIRED:

Please contact BMW Australia Ltd and affected consumers will be provided with a replacement unit that complies with the applicable safety standard. BMW will organise a licensed electrician to remove the non-complying unit and install the replacement Wallbox at no charge.

**CONTACT DETAILS:** For further information, please contact the BMW Group Interaction Centre on 133 269 (Monday to Friday, 8.30am - 5.30pm AEST) email [info@bmw.com.au](mailto:info@bmw.com.au) or visit <https://www.bmw.com.au>
