Defect The product was supplied with insufficient information on the label.

Affected high lift vehicle jacks do not comply with the labelling or instructions required in the mandatory standard for vehicle jacks, which is based on the Australian/New Zealand Standard AS/NZS 2693:2007.

Hazard If the jack is mislabeled and does not have correct safety information, the consumer may misuse it on a different vehicle or in a way that it was not designed for. Misuse may cause jack instability or failure. If a consumer is under the vehicle, this may lead to a vehicle collapsing causing severe injury or death.

What to do Consumers with affected farm jacks can contact Australian Sedy Pty Ltd via phone on (03) 9799 9888 or email info@sedy.com.au to discuss remediation.

Australian Sedy Pty Ltd will provide consumers with a permanent label that they can place on the product themselves. Consumers will also have the option to return the jack and have the label placed and returned at no cost.
