

Urgent Medicine Recall

- 1. Cancer Council Sensitive Sunscreen
SPF50+ 110mL (Tube). AUST L 278913
Batch 1103178 (Expiry: 02/2024)**
- 2. Cancer Council Sensitive Sunscreen
SPF50+ 200mL (Pump). AUST L 278913
Batch 1099751 (Expiry: 10/2023)**

Vitality Brands Worldwide Pty Ltd, the official sponsor of Cancer Council Sunscreens, following consultation with the Therapeutic Goods Administration, is recalling batches: 1103178 (Expiry:02/2024) of 110ml and 1099751 (Expiry: 10/2023) of 200ml Cancer Council Sensitive Sunscreen SPF50+ because benzene levels above the allowable amount have been detected. While the levels of benzene are above the allowable under Australian standards, the health risk to consumers who may have used these products is considered extremely low. TGA guidelines for this matter are set to ensure that an individuals' excess cancer risk does not exceed 1 in 100,000 if that individual used the maximum recommended amount of the product every day for 70 years.

No other batches of these identified medicine are affected by this recall.

Consumers who currently use the affected batches of these products should immediately stop using them and contact Vitality Brands Worldwide for a full refund along with additional information such as evidence of purchase.

Anyone who is concerned in any way about the use of this product affecting their health should consult their doctor.

We sincerely apologise for any inconvenience.
