

Product Safety Recall

Brompton P Line Bike

Serial numbers less than 2203113405

Sold between 2 January - 5 June 2022

Defect: If overtightened, a nut on the front wheel may be damaged and could become loose. If this occurs, the front wheel nut could become dislodged during cycling.

Hazard: If the wheel comes off while riding this may result in an accident, causing serious injury.

What to do: Consumers can contact their local Brompton store or Brompton Accredited Retailer to arrange a repair.

To find a local Brompton retailer, visit <https://au.brompton.com/find-a-store>

Contact details: For more information, consumers can contact Brompton Bicycle Limited via email at support@brompton.com
